Under the artistic direction of Siglinda Scarpa, distinctive architectural ceramics are created for both interior and exterior spaces. The custom designed, hand-made, low maintenance tiles are designed for functional and decorative uses. Floors, wall pieces, tables, door and window frames, and fireplaces are all potential canvases for these clay paintings. Ancient Italian firing and patina techniques give Scarpa tiles a wide range of sensibilities, from the delicacy of colors in Italian frescos, to the geometry of line in modern interiors. Other elements available from the studio are large urns, vessels, and sculpture.

Scarpa Design Studio will collaborate with architects, designers, and other clients on custom and site-specific installations of any scale for corporate, public or residential environments. Prices are competitive and vary with the size and complexity of the project. Please contact the studio for a brochure and other information.

Siglinda Scarpa's commissions include Feldpausch, Inc. and Genevay, Inc., Geneva, Switzerland; Arthur and Olga Rankin, Jr., Bermuda and New York; The Garofalo Collection, Rome, Italy; Stonecrop Gardens, New York.
